Project Update

Scaffolding

While Christmas is approaching, we are taking steps to ensure that all sites are safe and secure over the holiday period. We wanted to let you know that the scaffold currently erected as part of the external works, will remain in place over the Christmas period. The scaffolding will be left safe and secure with the relevant signage being displayed. Our access ladders will be lifted to a higher level, or a security plate will be installed over the ladders. No one should be using the scaffolding other than the Axis and Westminster City Council project teams. If you see anyone on the scaffolding over the Christmas period, please contact the police on 999 immediately.

Repair progress

All repair works are now complete on all properties other than the portico on 17 which will be completed pending the scaffold permissions to the neighbouring property which will be organized by your RLO. Decorations are in their final stages with roof works starting in the new year. There will be a new programme which will be available from January 2025. The balcony repairs will be complete after the partial scaffold strike.
