Dear

Brunel estate ventilation and fire risk assessment work (project X253)

Thank you for your patience while we worked with our contractor, Axis Europe, to finalise the plans for the ventilation and fire risk assessment work at the Brunel estate.

Axis Europe has now completed the detailed planning for the project and Westminster City Council has agreed their Service Providers Proposal (SPP). Work is now planned to start in October 2019 once the formal leaseholder consultation has been completed.

What does the work include?

In summary, the work includes:

- Replacing the communal extract fans, silencers, local ductwork, dampers and controls in the plantroom on the roof.
- Cleaning all ventilation ductwork (communal and in-flat).
- In-flat works to include replacement of grilles, control damper and fire dampers.
- Electrical works associated with the vents.
- Emergency lighting upgrades within the plantroom.
- Fire stopping works (communal area only).
- Replacements of tenants' flat entrance doors with an opt-in for leaseholders.

Residents' meeting – 20 August 2019

We are holding a residents' meeting to give you the chance to ask questions about the planned work.

The meeting will be held at Brunel Youth Club*, Buckshead House, Brunel Estate, W2 5UA on 20 August 2019 between 6.30pm and 8.00pm.

There will be a short presentation by Axis Europe at 6:45pm, followed by a question and answer session. The presentation will cover the work being done, the timetable for starting the work and details of Axis' team.

Brunel Youth Club, Buckshead House

*From the road entrance to the estate on Great Western Road, turn left and walk up about 100m past the lift entrance to Devonport House, past the garages under Culham House, and then when you reach Buckshead House, walk on past the lift entrance and the youth club is around the corner.
