## QTE 2 Range Flat Entrance Door Sets - Third Party Dual Certified for Fire and Security

Secured By Design and Fire Resistance Certified

### Overview

The Russell Timber Technology QTE 2 Fire Door Set range is third party certified to BS 476:Part 22 FD30S. These products have been successfully fire-tested in both directions and in addition are also third party certified to PAS 24 for Security and certified by Secured by Design.

Russell Timber has also participated in the MHCLG Timber Fire Door Testing Programme where our products were again successfully tested in both directions.

This QTE 2 product range offers both glazed and unglazed door leaves with options for moulded facings to create a variety of door styles.

All products are available in painted or stained finishes, with all timber coming from managed forests with full Chain of Custody. All QTE 2 door sets are manufactured to bespoke sizes.

Our dual-certified QTE 2 door sets are available as in or outward opening and with or without letter plates and spyholes. We can also offer dual certified glazed sidelights and fanlights.

All products and production are subject to continuous development. The company reserves the right to amend details and sizes without notice
