Dear Resident,

Scottish Towers (Project AB108) Major Works Update

Thank you for your continued patience while we work on our plans to deliver the major works to your home.

In the last update letter sent in May 2024, it was explained that the Council's Commissioning Team is continuing to undertake a thorough review of the technical and commercial aspects of the proposals to ensure that they meet the requirements of the Client Brief. This is to ensure value for money for our leaseholders and the Council.

In addition to the Commissioning Team's work, over the coming weeks, we will be carrying out some adhesion testing. To do this we need a large lifting platform, to confirm the specification for the concrete repair and surface finishings. When the platform is in place our Mechanical and Electrical team have arranged testing to assist with the decarbonisation of the blocks.

We will continue to keep you updated; all correspondences are available to view on the project's webpage:
