

Addendum to Schedule of Changes to the Policies Map (I)

November 2024

1 Introduction

The Schedule of Changes to the Policies Map (March 2024) (see document CORE_004) summarises the proposed changes to Westminster's Policies Map for the partial revision to Westminster's City Plan. The statement accompanied the Regulation 19 Publication Draft City Plan (document CORE_001) and its associated Regulation 19 Draft Policies Map (see document CORE_003).

In November 2024, the council has submitted the City Plan Partial Review to the Secretary of State for independent examination. The draft Plan has been submitted alongside a series of proposed modifications – these has been logged in a Schedule of proposed Modifications (see document CORE_002). Some proposed modifications affect spatial designations: this document has therefore been produced to keep a record of all the proposed changes to spatial designations and the Policies Map that the council believes need to be made alongside any modifications to the Plan. A Submission Policies Map (see document CORE_005) has also been submitted to reflect this.

The Schedule of Changes to the Policies Map (March 2024), remains the core document explaining the main changes to the adopted Policies Map. This document only discusses changes to spatial designations that are being proposed at submission stage. If the council proposed any further changes through the Examination process, a new Addendum and Draft Policies Map will be published.

2 Overview of changes to Westminster’s spatial designations and Policies Map – submission stage

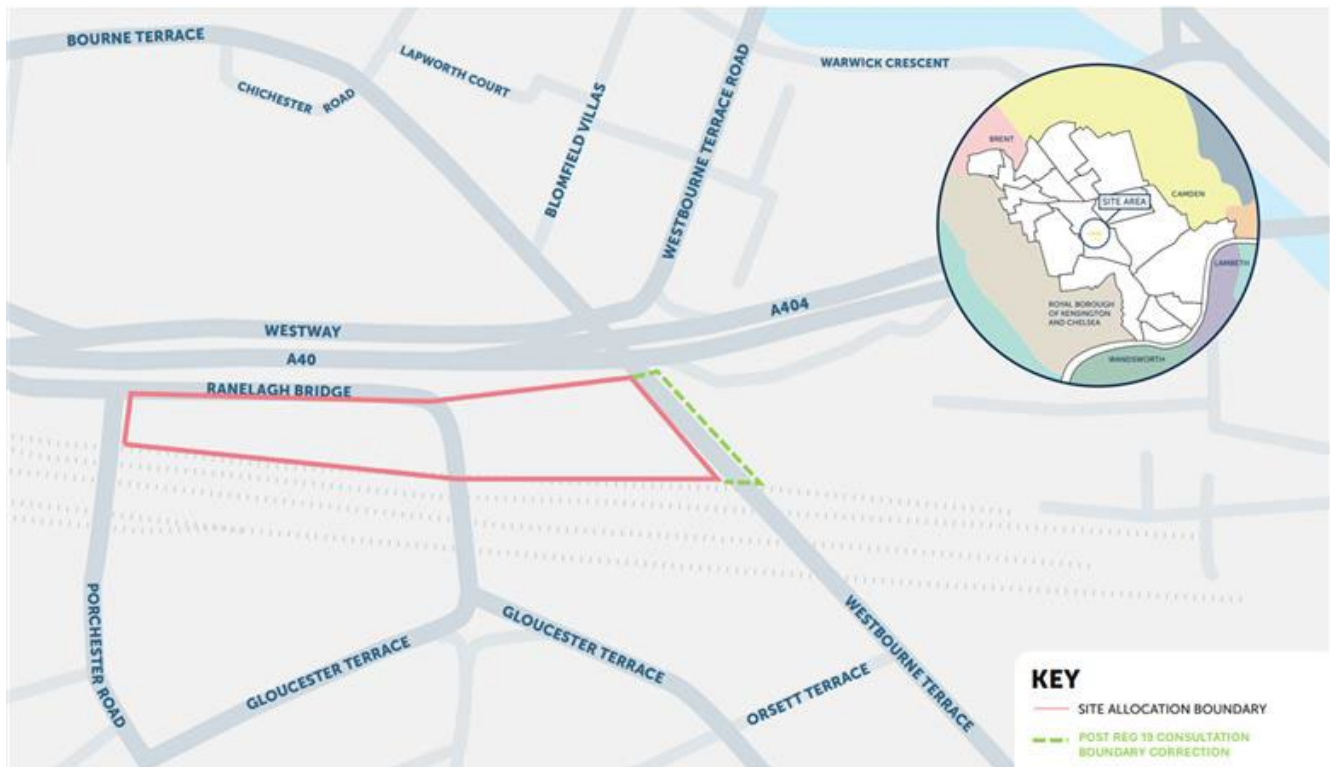

This section presents an overview of all the proposed changes to spatial designations and the Policies Map. Modifications proposed at submission stage have ‘S’ at the start of their reference.

Figure 1 Proposed submission changes to Westminster’s Policies Map

| Spatial Designation | In City Plan (2021) Policies Map | In City Plan 2019-2040 Regulation 19 Draft (March 24) Policies Map | In City Plan 2019-2040 Submission (November 24) Policies Map | Type of change between the March 2024 and November 2024 Policies Map | Proposed submission modification |
|-----------------------------|----------------------------------|--|--|--|---|
| Site Allocation – Royal Oak | NO | YES | YES | CHANGE | As explained in the Schedule of proposed Modifications (November 2024)(CORE_002), the council is proposing modifications to the Policies Map, namely to amend the boundary of the Site Allocation for Royal Oak in order to extend the boundary further to the east to reflect actual land ownership which includes land under the Lord Hills Bridge. This reflects similar amendments to Figures 19 and 20 from the Regulation 19 Draft City Plan (see modifications S/10/11 and S/10/12). |

The figure below shows how the boundary for 'Site Allocation – Royal Oak' should be amended.
