Hellois

FitzWest is not representative of the whole area. see email sent to neighbourhood planning Tue, 21 Apr, 12:09.

When I asked for help towards my greening project for Carburton Street, Gwilym told me to go to the Marylebone High Street Ward, which I did.

But, in order to get a small grant from Marylebone High Street Ward, I had to be part of an organisation. So I asked Gwilym if I could be represented by FitzWest, as Carburton Street is within Fitzwest parameters.

Gwilym put endless obstacles in my way. He did not want Carburton Street to interfere with his agenda for Great Titchfield Street. Gwilym justifies ignoring issues outside his area of interest, with the retort that he **"does not accept"**, what is said, regardless of evidence put forward.. He even said "I don't accept what Cllr Karen Scarborough said", over insurance not being needed for Greening Carburton Street.

So, if Carburton Street cannot be included in FitWest for funds/ help towards it's greening, then FitzWest need to re-define their area that excludes Carburton Street.

Denise France julien
