

What changes around Harrow Road would make the most difference to you?

WHAT IS THE PROJECT?

As part of the Harrow Road Place Plan, Westminster City Council are working with an architect-led team of professionals to lead two pieces of work:

1 - Picking up work to date and weaving it into an overarching vision that will be used to guide change over the coming years.

2 - Delivering improvements to three public spaces that are key to supporting wider neighbourhood improvements. The first focuses on Maida Hill Market Place, that has the potential to unlock jobs and revenue for residents and space for culture, community, and civic life. The second and third sit at points where the high street meets the canal, offering the chance to create greener and more inviting public spaces.

This ambitious £1.8m project is being jointly funded by the Council and the Greater London Authority's Good Growth Fund, providing investment in local projects that can transform the neighbourhood for the better.

HOW TO GET INVOLVED

1. Drop in event – Join us in person

**Saturday 19th June from 10am – 5pm,
Maida Hill Market Place**

Due to the ongoing pandemic, this will be socially distanced, and health and safety guidelines will be followed.

2. Online

All information will be available online at harrowroad.org from the 19th June for you to share your comments and views.

3. By email, phone or post

We can send you a paper copy of the information, which you can request using the details below. Our team are happy to hear from you and answer any questions via:
