The "In it to Win It" recycling scheme rewards your community for recycling. It's really simple - the more you recycle the more prizes you will win for your community.

HOW DOES IT WORK?

We'll be monitoring the bins on your estate. The more you recycle the more money you can earn. Look out for these stickers which will identify the bins included in the scheme.

Estates can win £500 or £1000 depending on their size. The more people recycle, the more chance there is of winning a cash reward for the community. For full details on the scheme visit westminster.gov.uk/init-towinit

PRIZES

Prizes are up to you, they could be...

- Sports and play kit
- Benches and gardening tools
- Wildlife projects

We would like suggestions for how you would like to see the money spent in your local community. To make your recommendation visit westminster.gov.uk/init-towinit Once your estate has won money you'll be able to vote for prizes.

You can vote online westminster.gov.uk/init-towinit or in person at your local estate office.

RECYCLE RIGHT

If the wrong thing is in your bin nothing can be recycled and therefore won't count towards your prizes.

WIN AN EXTRA £1,000

We are also offering £1,000 for the estate with the best quality recycling to encourage everyone to recycle right.
