## About this Building Safety Information Pack

### Aim

The aim of this Building Safety Information Pack is to inform and involve the residents of Daventry House in building safety matters, such as fire prevention, evacuation procedures, safety measures, and improvement projects.

This pack will provide you with information which was developed following our city-wide survey and the block consultation meeting that took place with residents of Daventry House on Tuesday 26<sup>th</sup> November 2024 and Thursday 28<sup>th</sup> November 2024.

We will regularly review this pack to ensure it is effective and meets the needs of everyone living in this building.

## Key contact details for your building

### Principal Accountable Person

*The (PAP) ensures compliance with building safety regulations and makes critical decisions regarding fire safety and structural management in occupied buildings. They oversee safety measures, take steps to prevent and mitigate building safety risks, and coordinate responses to incidents within the building*

Name:	<b>Westminster City Council (WCC)</b>
Email address:	buildingsafetymanagers@westminster.gov.uk
Telephone Number:	0800 358 3783
Postal Address:	64 Victoria Street, London, SW1E 6QP

### Building Safety Manager

*Is responsible with overseeing and implementing measures to ensure the safety and well-being of occupants within a building*

Name:	James Chang
Email address:	buildingsafetymanagers@westminster.gov.uk
Telephone Number:	0800 358 3783
Postal Address:	Westminster City Council, 12th Floor, City Hall, 64 Victoria Street, London, SW1E 6QP

## Responsible Person

*A key role designated under the Regulatory Reform (Fire Safety) Order 2005. Their primary responsibility is to ensure the safety of occupants within a building concerning fire safety measures.*

Name:	Carl Vernon
Email address:	cvernon@westminster.gov.uk
Telephone Number:	0800 358 3783
Postal Address:	Westminster City Council, 12th Floor, City Hall, 64 Victoria Street, London, SW1E 6QP

## Resident Engagement Officer

*Facilitates positive resident-building management relations, ensuring resident voices are heard, and addresses their needs.*

Name:	Halima Islam
Email address:	buildingsafetymanagers@westminster.gov.uk
Telephone Number:	0800 358 3783
Postal Address:	Westminster City Council, 12th Floor, City Hall, 64 Victoria Street, London, SW1E 6QP

## Key stakeholders

### Fire and Rescue Service

Online:	<a href="https://www.london-fire.gov.uk/contact-us/">https://www.london-fire.gov.uk/contact-us/</a>
Telephone Number:	020 8555 1200 (Monday to Friday 8.30am -5pm)
Postal Address:	London Fire Brigade Head Office 169 Union Street, London, SE1 0LL

### The Building Safety Regulator

Online:	<a href="http://www.gov.uk/guidance/contact-the-building-safety-regulator">www.gov.uk/guidance/contact-the-building-safety-regulator</a>
Telephone Number:	0300 790 6787 (Monday to Friday, 8:30am to 5pm, except on Wednesdays when they are open from 10am to 5pm)

## Key building information

### Building summary

Building Registration Reference	HRB15066S8D4
Total Number of Floors	12
Total Height of Building	43.1 Metres
Originally Built	2023
Type of Use	Residential and Commercial use
Number of Residential Units	60

### Structure type and materials

Structure Type	Concrete
External Walls	Masonry, Metal Panels and Glass
Roof	Flat Roof – Bitumen Felt
Internal Features	2 Staircases and Cross-corridor Fire Doors Balconies, Communal Recreation area on the roof, Escape route onto and across the roof,
External Features	Machinery in a room on the roof

### Fire and smoke controls

Fire Action Policy	Stay Put (Defend in Place)
Smoke Controls – Residential	Smoke detectors, Heat detectors and Sprinklers Dry Riser, Alarm Sounders (connected to detectors and call points), Automatic Smoke Control Systems, Smoke Detectors and
Smoke Controls – Communal	Sprinklers
Total Number of Lifts	3
Type of Lift	Fire-Fighting Lift, Modernised Lift
Secure Information Box	Installed
Emergency Exits	5
Energy supply / utilities	Gas
Other Utilities / Features	Electricity, Solar Panels

## What to do in the event of a fire

If the fire is inside your flat – leave and make sure your flat door closes behind you. Keep calm and don't panic.

1. **Escape Route:** Take the normal way out, if possible, but do not use the lift
2. **Quick Exit:** Move quickly but safely. Don't stop to investigate or pick up valuables
3. **Emergency Exit:** Leave the building using the emergency exit routes and stairs provided (again, avoid using the lift)
4. **Call 999:** Get out, stay out, and call emergency services.

Your building has a Stay Put Policy. Therefore, If the fire is elsewhere in the building – stay inside your flat and close all windows and doors and call 999. This policy, known as the "Stay Put" policy, is used in high-rise buildings like yours to keep residents safe during a fire.

  City of Westminster

### FIRE ACTION NOTICE IN CASE OF FIRE

 **FIRE IN YOUR HOME:**

1. Leave the room where the fire is and close the door.
2. Tell everyone in your home to leave and close your flat door behind you.
3. DO NOT try and fight the fire.
4. DO NOT use the lift(s).
5. To call the Fire Service dial 999.
6. Wait outside, away from the building for the emergency services to arrive.

 **FIRE IN ANOTHER PART OF THE BUILDING:**

The building is designed to prevent a fire from spreading from one flat to another, this means it will usually be safe for you to stay in your flat if there is a fire elsewhere.

If you see smoke or feel heat or are told to do so by the Fire Service **LEAVE IMMEDIATELY.**

If you are in any doubt **LEAVE.**

**The above Fire Action Notice is located within your communal area. Please take the time to review and familiarise yourself with this guidance.**

## What to do if you feel that you are not able to leave your property safely in the event of a fire

**Please contact the building safety team if you consider yourself to be at a higher risk, in the event of a fire in your building. We're here to provide extra support, especially for older adults, individuals with disabilities, and those with visual or hearing impairments.**

## How you can report a building safety concern

We are committed to actively listening, learning, and promptly addressing any concerns raised by residents living in our high-rise residential buildings.

### Contacting us with your concern

Email address:	<a href="mailto:buildingsafetymanagers@westminster.gov.uk">buildingsafetymanagers@westminster.gov.uk</a>
Telephone Number:	0800 358 3783
Postal Address:	Westminster City Council, 12th Floor, City Hall, 64 Victoria Street, London, SW1E 6QP

## Residents' responsibilities to prevent or lessen risks

### Ensuring safety in high-rise residential buildings

#### **Test Smoke/Heat Alarms:**

Test your smoke & heat alarms regularly, at least once a month, and replace batteries as needed. If you are a Leaseholder/Freeholder, please ensure these alarms are in place and are tested.

#### **Keep Doors Closed**

Communal doors must always be kept closed.  
Please close all internal doors at night to help prevent the spread of fire and smoke throughout your dwelling.

#### **Cooking Safety:**

Never leave cooking unattended, especially when using hot oil or cooking at high temperatures.  
Keep flammable items, such as tea towels and paper towels, clear from the stove.

#### **Electrical Safety:**

Do not overload electrical sockets or use damaged electrical cords.  
Regularly inspect electrical appliances for signs of damage or wear and replace them if necessary.

#### **No Smoking in Communal Areas:**

Smoking in communal parts poses a fire hazard and affects the health and comfort of fellow residents. Please refrain from smoking in these areas.

#### **Keep Landings, Hallways and Balconies Clear:**

Cluttering on balconies and common areas can obstruct escape routes during emergencies and increase the risk of accidents and fire. Let's work together to always keep these spaces clear and accessible.

#### **Recharging of Scooters, Electric Bikes and Batteries:**

If you are charging electrical devices or E-scooter / E-bikes, please follow these basic instructions:

- Never charge an E-scooter/E-bike in a place that blocks your exit in an emergency.
- Never leave a charging device unattended – for example, charging overnight when you are asleep.
- Always use the original charger or a licenced replacement if the original is damaged.
- Never charge a damaged lithium battery.
- Never use a damaged charger.

If you are charging small items / batteries and item begins to smoke or the battery begins to swell:

- Stop charging immediately
- Turn the item off
- Do not tamper or attempt to repair the item

If you have old or broken items that contain Lithium batteries, please dispose of them correctly. Do not throw item with batteries into the general rubbish/waste bins. All Lithium batteries need to be disposed of away from general rubbish/waste to avoid the risk of fire. These items include non-rechargeable batteries, tools with batteries (i.e. battery drills) and disposable vapes.

**Report Concerns Promptly:**

If you notice any potential hazards or safety concerns, such as faulty electrical outlets, tripping hazards, or suspicious activity, please report them immediately to our repairs team or your housing officer.

**Window Restrictors:**

To prevent accidents do not place any furniture near the windows. Make sure children do not know how to open windows or use window restrictors. If you need window restrictors, if yours are not working, or if your windows are damaged, please contact our repairs team 0800 358 3783. You can also visit the Child Accident Prevention Trust website: [www.capt.org.uk/falls-from-open-window](http://www.capt.org.uk/falls-from-open-window) for more tips.

## Building safety

### Inspections in your building

Our mission is to ensure that our buildings are safe by regularly inspecting and maintaining them in accordance with industry standards and regulations. The table below details our maintenance, its frequency, and the responsible team.

Estate Inspections	Quarterly	Housing Team
Block Inspections	Monthly	Estate Team
Communal Boiler	Yearly	M&E Team
Emergency Lighting	Every 6 Months	M&E Team
Dry riser	Every 6 Months	M&E Team
Fire alarm testing and permanent open vents	Every 6 Months	M&E Team
Fire risk assessments	Yearly	Health & Safety Team
Legionella (water) testing	Every 2 years	Health & Safety Team
Lift inspections	Monthly	Health & Safety Team
Communal fire door inspections	Quarterly	Health & Safety Team
Front entrance door inspections	Yearly	Health & Safety Team

### Works to your building 2024 - 2028

No works programmed for this building.

## Communication

### How we will communicate with you

---

During the building safety consultation, you advised us that you would like to be communicated with only when there is a change in building safety information, and that you prefer to receive this information by post. We are committed to meeting our residents' communication preferences, but we may also use various other methods to regularly communicate about building safety. Whenever possible, we will tailor our communication to your preferences.

Please make sure Westminster City Council have your up-to-date contact details, to ensure you successfully receive all communications from us and get in contact if you would like this pack in a different format.

### How we will engage with you

---

We'll use various methods to engage with residents to gather feedback.

These include:

- Conducting surveys
- Arranging block meetings – in person and virtual
- Building safety residents' panel
- Email and written communication

### How to get involved

---

You can get involved with the management of your building and be the voice of residents living in high rise buildings in the following ways.

1. Block meetings
2. Building safety residents' panel

If you would like to join the panel, please contact your resident engagement officer

---

## Access and Alterations to your flat

---

Your safety is of utmost importance. We may need to access your home during reasonable hours to manage building safety risks. This includes maintenance of fire safety systems, inspections of fire doors, and electrical safety checks. If your actions are deemed a risk to the building, access may also be requested.

When implementing building safety measures, we will consult with residents on the following:

1. Emergency works
2. Major works or any refurbishment
3. Any recommendations from statutory authorities

We will provide the following details:

- The reasons behind the work
- The schedule for the work
- The expected duration of the work
- Areas of the building affected by the work
- Who will carry out the work
- Understand when the best time would be to carry out the work to limit disruption.

You will receive a written request detailing the reason for access with at least 48 hours' notice. If access is not granted, we will attempt to revisit twice more. Refusal may lead to a court order for access.

For any alterations to your property, consult your lease or tenancy agreement for provisions on permissible work. Inform the building safety manager of any planned works before starting.

## Building Safety Resident Engagement Strategy

Our new Building Safety Resident Engagement Strategy is designed to prioritise your safety and well-being while empowering you to actively contribute to the safety of your building. It outlines clear pathways for resident participation, fosters inclusive communication channels, and ensures accessibility to safety information. By engaging residents in safety discussions and decision-making processes, we aim to create safer and more secure living environments for everyone.

Access the full strategy document

Please share this pack and the QR code with anyone age 16 and over who is living at this property. If you would like to be sent a copy of this strategy, please let us know.

You can also access the building safety resident engagement strategy and this pack on our website using this link. <https://www.westminster.gov.uk/building-safety>

## Complaints in relation to building safety

The Building Safety Act 2022 states a “relevant complaint” about building safety may relate to:

- A building safety risk to a specific building
- The performance of an Accountable Person in fulfilling their duties under the Building Safety Act: <https://www.gov.uk/guidance/the-building-safety-act>.

## How to make a building safety complaint

---

**Stage One** - In the first instance contact your building safety manager as detailed within the Key contact details (section 3.0), or email: [buildingsafetymanagers@westminster.gov.uk](mailto:buildingsafetymanagers@westminster.gov.uk)

**Stage Two**- If you are not satisfied with the response received, please follow the formal complaints procedure.

Complaints procedure:

<https://www.westminster.gov.uk/about-act/complaints#complaints-procedure>

You can make a complaint in the following ways:

---

Housing contact centre by phone: 0800 358 3783

---

In person visiting housing service centre: [Link - Housing service centres](#)

---

Online:

<https://westminsterportal.icasework.com/form?Type=Complaint&Embed=False&Login=False>

## The Building Safety Regulator

---

If as a resident you remain unsatisfied with Stage Two, you can escalate the complaint to the Building Safety Regulator by following this link.

<https://www.gov.uk/guidance/contact-the-building-safety-regulator#complaints-you-can-make-to-bsr>

---
